

ASFV

Autism Society of the Fox Valley - serving the counties of
Calumet, Fond du Lac, Outagamie, Waupaca and
Winnebago

Our Mission

The Autism Society of the Fox Valley, Inc. was established in 1989. We are a 501 (c) 3 non-profit organization serving the counties of Calumet, Fond du Lac, Outagamie, Waupaca, and Winnebago. Our mission is to provide information and referral, advocacy, public awareness, education, and support for individuals, families, professionals and others who support those with autism.

Our board is comprised of volunteers; we are parents of children on the autism spectrum or we are autism educators. We are very thankful to Alcoa for their generous grant to put together our first resource guide. We have tried to be comprehensive in our undertaking and hope that the community finds this guide to be helpful in dealing with those on the autism spectrum. There are undoubtedly services and providers that we've missed. If you are a provider or know of any services that should be included in this directory, please fill out the Information Form included in this guide. Additionally, if information has changed, please contact us.

Inclusion of names in this directory does not indicate endorsement of any provider by the Autism Society of the Fox Valley (ASFV). Families have different levels of satisfaction with each provider. Members of ASFV may have had contact with some of the service providers in the guide and those individuals have an asterisk (*) by their names. However, the choice of provider is an individual decision for each family. ASFV does not endorse the treatment and therapies included within the guide nor can it take any responsibility for any results.

Very Special Thanks to:

Alcoa Charitable Foundation *which initially funded this project.*
The Autism Society of Fox Valley *board members who helped with the Resource Guide.*
